lionel jagger head of english at mincliffe college in rural worcestershire is found dead in bed one morning with his throat cut twenty eight years old erudite talented popular an unlikely victim of murder inspector wickfield and his assistant sergeant spooner trawl through his life leaving no stone unturned they interview widely they travel extensively the only result is bafflement since all they meet have either no motive for murder or an unassailable alibi in his despair at bringing the affair to a successful conclusion the chief inspector hands the case to another detective team wickfield however despite this set back uncovers with a flash of inspiration as clever as it is fortuitous a devious and subtle plot that has deceived his colleagues the joy of this book however lies not just in the unravelling of the mystery but in the politico philosophical theories canvassed the style the dry humour and yes the erudition as always in falconer the reader has access to all the information available to the investigating team and the tiny slip up that leads to unmasking the murderer is displayed for all to see if you re up to it falconer fails to spot it fortunately for us the inspector is sharper settle down in a comfortable chair and enjoy this latest offering from the pen of a master of the genre book reviews online publishedbestsellers website

this open access book consists of essays written by kishore mahbubani to explore the challenges and dilemmas faced by the west and asia in an increasingly interdependent world village and intensifying geopolitical competition the contents cover four parts part one the end of the era of western domination the major strategic error that the west is now making is to refuse to accept this reality the west needs to learn how to act strategically in a world where

they are no longer the number 1 part two the return of asia from the years 1 to 1820 the largest economies in the world were asian after 1820 and the rise of the west however great asian civilizations like china and india were dominated and humiliated the twenty first century will see the return of asia to the center of the world stage part three the peaceful rise of china the shift in the balance of power to the east has been most pronounced in the rise of china while this rise has been peaceful many in the west have responded with considerable concern over the influence china will have on the world order part four globalization multilateralism and cooperation many of the world s pressing issues such as covid 19 and climate change are global issues and will require global cooperation to deal with in short human beings now live in a global village states must work with each other and we need a world order that enables and facilitates cooperation in our global village

bookdown authoring books and technical documents with r markdown presents a much easier way to write books and technical publications than traditional tools such as latex and word the bookdown package inherits the simplicity of syntax and flexibility for data analysis from r markdown and extends r markdown for technical writing so that you can make better use of document elements such as figures tables equations theorems citations and references similar to latex you can number and cross reference these elements with bookdown your document can even include live examples so readers can interact with them while reading the book the book can be rendered to multiple output formats including latex pdf html epub and word thus making it easy to put your documents online the style and theme of these output formats can be customized we used books and r primarily for examples in this book but bookdown is not only for books or r most features introduced in this book also apply to other types of publications journal papers reports dissertations course handouts study notes and even novels you do not have to use r either other choices of computing languages include python c c sql bash stan javascript and so on although r is best supported you can also leave out computing for example to write a fiction this book itself is an example of publishing with bookdown and r markdown and its source is fully available on github

freedom libraries the untold story of libraries for african americans in the south as the civil rights movement exploded across the united states the media of the time was able to show the rest of the world images of horrific racial violence and while some of the bravest people of the 20th century risked their lives for the right to simply order a cheeseburger ride a bus or use a clean water fountain there was another virtually unheard of struggle this one for the right to read although illegal racial segregation was strictly enforced in a number of american states and public libraries were not immune numerous libraries were desegregated on paper only there would be no cards given to african americans no books for them read and no furniture for them to use it was these exact conditions that helped create freedom libraries over eighty of these parallel libraries appeared in the deep south staffed by civil rights voter registration workers while the grassroots nature of the libraries meant they varied in size and quality all of them created the first encounter many african americans had with a library terror bombings and eventually murder would be visited on the freedom libraries with people giving up their lives so others could read a library book this book delves into how these libraries were the heart of the civil rights movement and the remarkable courage of the people who used them they would forever change libraries and librarianship even as they helped the greater movement change the society these libraries belonged to photographs of the libraries bring this little known part of american history to life

it is the summer of 1728 and we are in the village of sherburn in the west riding of yorkshire with its handsome church boys grammar school ancient tavern and tranquil rural population below the church lies the site of the palace of the kings of elmete nearby across the common

and past the woods are the grand houses of commissioner of the peace squire hawley at scarthingwell hall and magistrate sir ralph gascoigne at parlington hall an apparent conspiracy to re establish the sixth century ancient british kingdom of elmete has worrying and sometimes hilarious consequences for the hapless vicar whose meagre detective skills are stretched to their limit both the squire and sir ralph are only too happy to leave it all to the vicar until that is the vicar is arrested for gun smuggling and the squire disappears it then transpires however that the conspiracy is merely camouflage for a more interesting crime altogether this neat tale both faithfully recreates the atmosphere of an eighteenth century yorkshire village and offers the modern reader rare entertainment book reviews online publishedbestsellers website

Decoding Ethos: The Power of Credibility and Trust

In a world saturated with information, discerning truth from falsehood is a critical skill. We're constantly bombarded with persuasive messages – from politicians promising change to advertisers touting the latest product. But how do we decide who to believe? The answer lies, in part, in understanding ethos, a crucial element of persuasion that goes beyond mere logic and emotion. Ethos, essentially, is about credibility and trust. It's the persuasive appeal based on the character and credibility of the speaker or writer. This article delves deep into the multifaceted nature of ethos, exploring its components and providing practical examples to help you both understand and leverage its power.

Understanding the Core Components of Ethos

Ethos isn't a monolithic concept. Instead, it's built upon several interconnected pillars:

Expertise: This refers to the speaker or writer's demonstrated knowledge and skill in the relevant field. A cardiologist speaking on heart health carries far more ethos than a celebrity endorsing the same information. Expertise is established through education, experience, and demonstrable achievements. For instance, a research paper on climate change published in a reputable scientific journal carries significantly more ethos than a blog post on the same topic by an unqualified individual. **Trustworthiness:** This speaks to the speaker's integrity and honesty. Do they have a history of telling the truth? Are they transparent about potential biases or conflicts of interest? A politician with a history of broken promises will have significantly lower ethos than one with a proven track record of keeping their commitments. Similarly, a company known for misleading advertising campaigns will struggle to build ethos with its customers. **Goodwill:** This relates to the speaker's perceived concern for the audience's well-being. Are they presenting information in a way that is helpful and respectful? Do they demonstrate empathy and understanding? A teacher who patiently explains complex concepts, addressing individual student concerns, projects greater goodwill, and hence, stronger ethos, than one who simply lectures from notes. **Shared Values:** This component focuses on the alignment between the speaker's values and those of the audience. A speaker who shares the audience's concerns and aspirations will be perceived as more credible and trustworthy. For example, an environmental activist speaking at a climate change rally will have higher ethos with an audience that shares a commitment to environmental protection.

Ethos in Action: Real-World Examples

Let's consider some practical applications of ethos across diverse contexts: **Marketing and Advertising:** Companies utilize ethos strategically. Using celebrity endorsements relies on the celebrity's established reputation and perceived trustworthiness. However, if a celebrity is involved in a scandal, it can negatively impact the product's perceived ethos. Conversely, showcasing testimonials from satisfied customers builds ethos through shared experiences and

social proof. **Political Discourse:** Successful political leaders build their ethos through consistent messaging, transparent actions, and a demonstration of empathy and understanding towards their constituents. Conversely, politicians caught in lies or scandals suffer a significant loss of ethos, impacting their ability to persuade the public. **Academic Writing:** In academic circles, ethos is paramount. Researchers meticulously cite their sources, employ rigorous methodology, and submit their work to peer review to establish credibility and trustworthiness. Plagiarism or manipulating data severely undermines ethos and can have serious consequences. **Public Speaking:** Effective public speakers establish ethos through their confident delivery, clear articulation, and respectful engagement with their audience. A speaker's appearance, demeanor, and even their choice of language contribute to the overall impression of credibility.

Building Your Own Ethos

Understanding ethos isn't just about evaluating others; it's crucial for building your own persuasive power. To strengthen your ethos: **Develop expertise:** Invest in education and training. Become knowledgeable in your field. **Demonstrate trustworthiness:** Be honest and transparent. **Acknowledge limitations and potential biases.** **Show goodwill:** Be empathetic, respectful, and genuinely concerned for your audience's needs. **Connect with shared values:** Understand your audience and tailor your message to resonate with their values and concerns.

Conclusion

Ethos is the cornerstone of persuasive communication, representing the credibility and trust invested in the speaker or writer. It's built upon expertise, trustworthiness, goodwill, and shared values. Understanding and leveraging ethos is critical for success in various aspects of life, from marketing and politics to academic writing and public speaking. By mastering these principles, you can significantly enhance your ability to communicate effectively and influence others.

Frequently Asked Questions (FAQs)

1. Is ethos the same as authority? While authority is a component of ethos (expertise is often linked to authority), ethos is broader. It encompasses trustworthiness, goodwill, and shared values, aspects not necessarily inherent in mere authority. 2. Can ethos be damaged? Absolutely. A single act of dishonesty or a demonstrable lack of expertise can severely damage a person's ethos. Repairing damaged ethos often requires significant effort and consistent demonstration of improved behavior and credibility. 3. How can I identify weak ethos in persuasive messages? Look for inconsistencies, lack of supporting evidence, biased language, and appeals to emotion without substance. Investigate the source's background and track record. 4. Is ethos context-dependent? Yes, what constitutes strong ethos varies depending on the audience and the context. A highly technical presentation might prioritize expertise, while a community meeting might emphasize goodwill and shared values. 5. Can I use ethos to persuade people even if I disagree with them? While building common ground through shared values can help bridge divides, persuasion through ethos relies on genuine

credibility and trust. If your message fundamentally contradicts your established ethos, it will be difficult to persuade the audience.
